Steam Away the Pounds™

Hi!

A long time ago I had a dream to steam. Now that dream has come true with Steam Heat™. Never before has a steamer been designed to do so much.

With my three individually controlled steaming compartments you can steam anything from a snack or breakfast to a complete dinner and dessert.

Steaming your food has benefits like no other form of cooking. Meats and fish are moist and juicy, vegetables retain all their vitamins and nutrients and desserts are full of flavor.

Steaming has always been one of my secrets to losing weight and keeping it off. With a set of easy recipes for you to follow, steaming will become your kitchen's best friend.

Happy Steaming!

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed including the following:

1. Read all instructions.
2. Do not touch hot surfaces. Use handles.
3. To protect against electrical shock do not immerse cord, plugs, or appliance in water or other liquid.
4. Close supervision is necessary when any appliance is used by or near children.
5. Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
6. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner. Contact Consumer Service for examination, repair or adjustment.
7. The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
8. Do not use outdoors.
9. Do not let cord hang over edge of table or counter, or touch hot surfaces.
10. Do not place on or near a hot gas or electric burner, or in a heated oven.
11. Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
12. To disconnect, turn any control to OFF, then remove plug from wall outlet.
13. Do not use appliance for other than intended use.

ADDITIONAL IMPORTANT SAFEGUARDS

CAUTION HOT SURFACES: This appliance generates heat and escaping steam during use. Proper precautions must be taken to prevent the risk of burns, fires, or other injury to persons or damage to property.

1. A person who has not read and understood all operating and safety instructions is not qualified to operate this appliance. All users of this appliance must read and understand this Owner's Manual before operating or cleaning this appliance.
2. If this appliance falls or accidentally becomes immersed in water, unplug it from the wall outlet immediately. Do not reach into the water!
3. When using this appliance, provide adequate air space above and on all sides for air circulation. Do not operate this appliance while it is touching or near curtains, wall coverings, clothing, dishtowels or other flammable materials.
4. To reduce the risk of fire, do not leave this appliance unattended during use.
5. If this appliance begins to malfunction during use, immediately unplug the cord. Do not use or attempt to repair a malfunctioning appliance!
6. The cord to this appliance should only be plugged into a 120V AC electrical wall outlet.
7. Do not use this appliance in an unstable position.
8. Do not use the Food Steamer if the Drip Tray or Steamer Base, or if any Steamer Bowl is cracked or damaged.
9. Make sure the Food Steamer is unplugged and the steaming water has cooled before cleaning.

10. Never plug the Food Steamer into the wall outlet until you snap the rings into position around the heating elements. Next, fill the Steamer Base with water and then place the Drip Tray inside the Steamer Base.
11. Avoid electric shock by unplugging the Steamer before washing.
12. To avoid steam burns, position the Lids' Steam Vents towards the back of the unit during cooking.

WARNING: Steam is hot and can cause burns. Keep hands and face away from Steam Vents in the Lids during cooking. Use protective oven mitts to remove Steamer Bowls from the Base and to lift the Lids. When removing the Lids after steaming, always tilt Lids away from your face to avoid burns caused from steam.

13. The Steamer Base and components are not for use in ovens (microwave, convection, or conventional) or on a stove-top.

CAUTION: While steaming, make sure the Food Steamer is placed in a secure area that will not be bumped, pushed or disturbed in any manner.

14. Before pressing the ON/OFF Button, make sure that the Steamer Bowls are securely sitting in the Drip Tray – and the Drip Tray is securely sitting in the Steamer Base. Make sure that the food is evenly distributed within each Steamer Bowl and each Lid is properly affixed before steaming.

Polarized Plug

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way.

Short Cord Instructions

A short power-supply cord is provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord.

Do not use an extension cord with this product.

Plasticizer Warning

CAUTION: To prevent Plasticizers from migrating from the finish of the countertop or tabletop or other furniture, place NON-PLASTIC coasters or placemats between the appliance and the finish of the countertop or tabletop. Failure to do so may cause the finish to darken, permanent blemishes may occur or stains can appear.

Electric Power

If the electrical circuit is overloaded with other appliances, your appliance may not operate properly. It should be operated on a separate electrical circuit from other appliances.

BEFORE FIRST USE

CAUTION: Do not immerse cord, plug, or Steamer Base with Heating Elements in water or other liquids.

IMPORTANT: Never place Lids, Cooking Bowl, Steamer Bowls or Drip Tray on a hot stove or in a microwave.

1. Unpack the Food Steamer and accessories, removing all packaging materials.
2. Wash Steamer Bowls, Lids, Cooking Bowl, Drip Tray and Steam Rings in mild dishwashing detergent. Rinse and dry thoroughly.

NOTE: Removable parts are dishwasher-safe (top rack only).

OPERATING INSTRUCTIONS

Setting Up

1. Make sure that the Steamer is unplugged. Place the Steamer Base on a flat sturdy surface with adequate clearance.
2. Place the Steam Rings around the Heating Elements so that the end with the small hole faces down.
3. Using a spouted vessel, fill the Steamer Base with water until it reaches the Maximum Fill Line located on the inside of the Steamer Base (approximately 10 cups).
4. Place the Drip Tray onto the Steamer Base, making sure that it is positioned correctly.
5. Fill the Steamer Bowls with desired food (refer to the HINTS & TIPS, STEAMING CHARTS and RECIPES sections of this Owner's Manual for meal suggestions and guidelines). When placing food into the Steamer Bowls, make certain not to block all of its steam holes; there must be adequate air circulation around the food to ensure even steaming. Food should be cut into uniform-sized pieces and distributed evenly within each Steamer Bowl. After filling, place the appropriate lid on each Steamer Bowl.

WARNING: Do not overfill Steamer Bowls as this will prevent proper steaming. Only fill the Steamer Bowls approximately half full with food.

NOTE: Make sure that all 3 Steamer Bowls are securely positioned on the Steamer Base, even if they are not being used for steaming; and that each Lid is securely positioned with the Steam Vents facing toward the back of the unit.

Using the Cooking Bowl:

Use the Cooking Bowl to prepare white, brown or wild rice or to steam other foods. Simply add the desired ingredients into the Cooking Bowl, place the Cooking Bowl inside the Large/Center Steamer Bowl, then cover with the Lid.

Refer to the *HINTS & TIPS*, *STEAMING CHARTS* and *RECIPES* sections of this Owner's Manual for more detailed instructions on cooking rice and other foods in the Cooking Bowl.

- To enhance flavor: Add $\frac{1}{4}$ teaspoon of fresh/dried herbs or spices plus 1 teaspoon of water into the Flavor Tray under each of the desired Steamer Bowls (each Steamer Bowl has its own Flavor Tray). See "Herbs, Spices and Seasonings" in the RECIPES section of this Owner's Manual for more flavor enhancing ingredients.
- Position the Steamer Bowls onto the Drip Tray so that the Steam Vents on each of the Lids are facing toward the back of the unit.

Steaming

CAUTION: Make sure that all 3 Steamer Bowls are securely positioned on the Steamer Base, even if they are not being used for steaming; and that each Lid is securely positioned with the Steam Vents facing toward the back of the unit.

CAUTION: Make sure the Steamer is placed in a secure area that will not be bumped or disturbed in any manner, or where steam could damage upper cabinets, curtains, etc.

- Plug the power cord into a 120V AC electrical outlet. The Food Steamer will enter into Standby Mode; the Display will show like in Figure 2.

Figure 2

2. To set the cooking time, press the BOWL SELECT Button until the desired Steamer Bowl is flashing in the Display (Figure 3).

Figure 3

3. Enter the cooking time using the + and – Buttons, then press the BOWL SELECT Button to select the next Steamer Bowl. The BOWL will stop flashing in the Display to indicate that it is set.

NOTE: Each cooking time may be set for up to 99 minutes. Hold down the + or – Button to advance through the cooking times faster.

4. Repeat Steps 2 & 3 until each Steamer Bowl is set for the appropriate cooking time.

CAUTION: Make sure that all 3 Steamer Bowls are securely positioned on the Steamer Base, even if they are not being used for steaming; and that each Lid is securely positioned with the Steam Vents facing toward the back of the unit. Simply do not enter a cooking time for any Steamer Bowl that is not being used.

5. Once all of the cooking times have been entered, press the SET Button to confirm. All BOWL icons will stop flashing in the Display. The Steamer will not start cooking until the ON/OFF Button is pressed.

NOTE: To adjust any of the cooking times, press the BOWL SELECT Button until the desired Steamer Bowl is selected, and then use the + and – Buttons to revise the cooking time. Press the SET Button again to confirm.

6. Press the ON/OFF Button to begin cooking. The red Power Light will illuminate, indicating that the Food Steamer is in use; and the Steamer Bowl with the longest cooking time will start counting down in the Display. Each Steamer Bowl will start counting down at the appropriate time, so that all of the Steamer Bowls are finished cooking at the same time.

NOTE: If at any time during steaming the water level falls below the Minimum Water Fill Line marked next to the Water Window, the Display will flash and an audible beep will sound. The Heating Elements will stay ON and the Timer will continue to countdown. When the Display flashes and the audible beep sounds faster, the Heating Elements will turn off and the Timer will stop counting down.

To Refill the Steamer Base: Use a spouted vessel to pour water through the WATER REFILL Opening until the water level reaches the Maximum Fill Line on the Water Window. Once the Steamer Base has been refilled, the Steamer will stop beeping and will resume steaming for the remaining cooking time.

7. After cooking is complete, three audible beeps will sound and the Food Steamer will automatically enter into the Keep Warm Mode. The Display will show like in Figure 4.

Figure 4

NOTE: The default “Keep Warm” time is set for 60 minutes, and will begin counting up from “0” in the Display. After 60 minutes, the Steamer will shut off automatically.

8. Use protective oven mitts to remove the Lids and check the food for desired doneness. Press the ON/OFF button to shut off the Steamer – the red Power Light will turn off. If the food needs more steaming, replace the Lids and repeat steps 2-6 to reset the cooking time.

Setting the Same Cooking Time for all 3 Steamer Bowls

When the Food Steamer is in Standby Mode (Figure 2), hold down the SET Button until all three “BOWL” icons are flashing in the Display. Press the + and – Buttons until the desired cooking time is reached, and then press the SET Button to confirm. The Steamer will not start cooking until the ON/OFF Button is pressed.

When in Standby Mode, the display will look like that in Figure1. To return to Standby Mode press the SET Button once; this will clear the Display and then hold down the SET Button until all three “BOWL” icons are flashing in the Display.

NOTE: To adjust any one of the cooking times, press the BOWL SELECT Button until the desired Steamer Bowl is selected, then use the + and – Buttons to revise the cooking time. Press the SET Button again to confirm.

WARNING: Steam is hot and can cause burns. Keep hands and face away from steam vents in the Lids. Use protective oven mitts to remove Steamer Bowls from the Base and to remove the Lids. When removing the Lids after steaming, always tilt lid away from your face to avoid burns caused from steam.

USER MAINTENANCE INSTRUCTIONS

Care and Cleaning

CAUTION: Unplug and allow Steamer and water to cool completely before emptying water from the Drip Tray and Steamer Base and before cleaning. Do not immerse cord, plug, or Steamer Base with Heating Elements in water or other liquids.

IMPORTANT: Always empty and clean the Steamer Base and Drip Tray after every use.

1. Make sure that the red Power Light is off and then unplug the Steamer from the wall outlet.
2. Allow the Lids, Steamer Bowls, Drip Tray, Steam Rings, Steamer Base and water to cool completely before cleaning.
3. Lift the Steamer Bowls and Drip Tray off of the Steamer Base. Remove the Steamer Bowls and tilt the Drip Tray over the sink to pour out any water that has collected.
4. Remove the Steam Rings out of the Steamer Base and then tilt the Steamer Base over the sink to pour out of the back right corner any remaining water.
5. Wash Steamer Bowls, Lids, Cooking Bowl, Drip Tray and Steam Rings in mild dishwashing detergent. Rinse and dry thoroughly.

NOTE: Removable parts are dishwasher-safe (top rack only).

6. Clean the Steamer Base with a soft, damp cloth and dry thoroughly.

Descaling

It is advised that you descale your Steamer after every 7 – 10 uses, or as needed to prevent mineral buildup on the Heating Elements and in the Steamer Base. Mineral buildup can cause longer steaming times and possibly affect the flavor of steamed foods.

CAUTION: Do not immerse cord, plug, or Steamer Base with Heating Elements in water or other liquids.

1. Make sure that the Steamer is unplugged and has cooled completely.
2. Remove all parts from the Steamer Base, including the Steam Rings.
3. Fill the Steamer Base with approximately 9 cups of warm water and 1 cup of white vinegar.

NOTE: The Heating Elements should be completely submerged in the solution.

4. Allow the solution to soak in the Steamer Base for 30 minutes. After this soaking period, scrub the Heating Elements with a nylon scrubber as needed.
5. Remove the Steam Rings out of the Steamer Base and then tilt the Steamer Base over the sink to pour the solution out of the back right corner.
6. Wipe the interior and exterior with a clean, damp cloth and dry thoroughly.
7. Refill the Steamer Base with fresh, cold water and pour out into the sink. Repeat several times until all traces of vinegar have been removed.

Storing

Unplug the Steamer from the wall outlet by grasping the plug. NEVER pull on the cord. Clean and dry all parts after each use. NEVER store the Steamer while it is hot, wet or still plugged in. Store the Steamer in its box or in a clean, dry place.

HINTS & TIPS

Rice & Grains

There are many types of rice. Follow specific directions for the variety used. See the Rice Steaming Chart in the STEAMING CHARTS section of this Owner's Manual for suggested cooking times and amounts.

- Add no more than 1 cup of rice to the Cooking Bowl, plus the appropriate amount of water and other ingredients suggested on the Rice Steaming Chart. The amount of water will be less than listed on the rice package because the steamer will retain moisture. Place the Cooking Bowl into the Large/Center Steamer Bowl; then put the Lid in place.
- For softer rice, increase the amount of water indicated in the Rice Steaming Chart by 1 to 2 tablespoons. For firmer rice, decrease the amount of water added to the Cooking Bowl by 1 to 2 tablespoons. The amount of water will also vary depending on the type of rice or grain.
- At the end of the suggested cooking time specified on the Rice Steaming Chart, use protective oven mitts to remove the Lid. Always tilt Lid away from your face when removing to avoid burns. Be careful not to allow condensed water to spill into the Cooking Bowl since this would reduce the quality and flavor of the steamed rice. Stir the rice in the Cooking Bowl and check it for doneness and consistency.
- If excess liquid remains in the rice Cooking Bowl after rice is done, then use a spoon or ladle to remove the excess water, a little at a time. Replace the Lid and continue to cook for an additional 5 minutes.
- Rice may be seasoned with salt, pepper, or butter before or after steaming.

Vegetables

See the Vegetable Steaming Chart in the STEAMING CHARTS section of this Owner's Manual for suggested cooking times and amounts.

- Clean vegetables thoroughly before steaming. Cut off stems and peel and chop into uniform pieces if necessary. Keep in mind that smaller pieces steam faster than larger ones.
- Quantity, quality, freshness and size/uniformity may all affect steaming times. Adjust steaming times as desired.
- Experiment with various vegetables and combinations, and adjust cooking times to your personal taste.

Seafood

See the Seafood Steaming Chart in the STEAMING CHARTS section of this Owner's Manual for suggested cooking times and amounts. (The steaming times listed in the chart are for fresh or fully thawed fish/shellfish.)

- Clean and prepare fresh seafood before steaming. Marinate fish before steaming to impart flavors.
- Use lettuce leaves under fish filet and fish steaks to catch some of the juice and to make removing the fish easier.
- Clams, oysters, and mussels may open at different times. Check the shells periodically to avoid over-cooking.
- Serve steamed seafood plain or add seasoned butter or margarine, lemon or your favorite sauces after steaming.
- Adjust steaming times to suit your personal taste.

Eggs

See the Egg Steaming Chart in the STEAMING CHARTS section of this Owner's Manual for suggested cooking times and amounts.

- **Steamed Eggs:** Let the eggs sit at room temperature for 30 minutes to avoid cracking while cooking. Place the eggs into the dimples, large ends up. Cook according to the Egg

Steaming Chart. Use a large spoon to remove the eggs. Place them in a heat-resistant colander and run cold water over the eggs for about 30 seconds to prevent them from further cooking.

- **Poached Eggs:** Place each raw egg into a separate heat resistant bowl or custard cup coated with butter or I Can't Believe It's Not Butter®. Season with salt and pepper, if desired. Place the custard cups into the Steamer Bowls and cover with the Lids. Cook according to the Egg Steaming Chart.
- **Scrambled Eggs:** In a small mixing bowl, beat 6 eggs together with 2 tablespoons of milk or water and seasonings. Coat the Cooking Bowl with butter or I Can't Believe It's Not Butter® and pour in the egg mixture. Steam for 20-25 minutes in the Large/Center Steamer Bowl. Stir eggs about halfway through cooking, when the eggs start to set around the edge. Steam until a knife inserted into the eggs comes out clean.

STEAMING CHARTS

IMPORTANT: The times listed in the Steaming Charts are to be used only as a guide. Allow for differences in individual taste and preference. The times may also vary due to the shape, cut, and composition of the food.

Recipes from Richard's Kitchen

NOTE: When a choice of ingredients is listed, the first one is used to figure the nutritional analysis. The nutritional analysis is for 1 serving.

Breakfast:

Eggs Benedict

Serves 1

I Can't Believe It's Not Butter® pump spray
1 slice lean honey ham, sliced paper thin
1 egg
1 slice roasted red pepper
½ whole grain English muffin

Sauce:

½ teaspoon country mustard
1 teaspoon lemon juice
1 tablespoon fat-free mayonnaise

1. Spray a small heat resistant soufflé/custard/casserole dish with pump spray, add ham and top with egg.
2. Steam in Small or Large Steamer Bowl for 8 to 10 minutes until egg is just cooked through.
3. Meanwhile mix together sauce ingredients and toast English muffin.
4. Spread sauce on English muffin and slide egg and ham on top or serve on the side. Garnish with roasted bell pepper and serve.

Nutritional Information:

156 Calories, 10.8 gm Protein, 14 gm Carbohydrate, 5.9 gm Fat, 218 mg Cholesterol, 311 mg Sodium

Tip: Eggs Benedict is a classic dish. Our light delicious sauce gives you the flavor without all the fat and calories.

Turkey American Scrambler

Serves 1

I Can't Believe It's Not Butter® pump spray
1 slice deli roasted turkey (sliced thin)
1 egg (whisked) or ¼ cup Eggbeaters®
1 slice 2% American cheese
1 teaspoon chopped scallions or green onions

1. Spray a small heat resistant soufflé/custard/casserole dish with pump spray.
2. Place turkey on bottom of soufflé cup and top with egg.
3. Top with cheese, slicing to cover. Garnish with chopped scallions or green onions.
4. Steam in Small or Large Steamer Bowl for 8 to 10 minutes until the egg is cooked through and serve.

Nutritional Information:

112 Calories, 12.3 gm Protein, 1.1 gm Carbohydrate, 6.2 gm Fat, 222 mg Cholesterol, 373 mg Sodium

Tip: This filling is also great rolled into a wrap and served as an on-the-go sandwich.

Eggs with Peppers and Onions

Serves 1

I Can't Believe It's Not Butter® pump spray
2 tablespoons chopped red pepper
3 tablespoons chopped scallions or green onions
1 egg (whisked) or ¼ cup Eggbeaters®
1 slice low-fat Swiss cheese (sliced thin)
1 teaspoon hot sauce

1. Spray a small heat resistant oval soufflé/casserole dish with pump spray.
2. Place 2 tablespoons peppers and 2 tablespoons scallions or green onions in dish.
3. Top with egg and cheese.
4. Sprinkle with hot sauce and garnish with remaining 1 tablespoon chopped scallions or green onions.
5. Steam in Small or Large Steamer Bowl for 7 to 10 minutes until egg is set then serve.

Nutritional Information:

104 Calories, 10.6 gm Protein, 2 gm Carbohydrate, 5.7 gm Fat, 217 mg Cholesterol, 109 mg Sodium

Tip: Extra hot sauce can be used for those who like it spicy. Also a low-fat Muenster or low fat mozzarella works great in place of the Swiss cheese.

Eggs Espanola

Serves 1

1 Can't Believe It's Not Butter® pump spray
2 tablespoons salsa (drained)
dash hot sauce
1 egg (whisked) or ¼ cup Eggbeaters®

- ½ teaspoon dried oregano, crushed
- ½ teaspoon ground cumin

Lemon-Rosemary Rub

Use with poultry, fish or pork

- 1½ teaspoons lemon peel, grated
- 1 teaspoon dried rosemary leaves
- ¼ teaspoon thyme leaves
- 2 cloves minced garlic
- ¼ teaspoon salt
- ¼ teaspoon black pepper

Hot Mustard Rub

Use on poultry

- 2 tablespoons paprika
- ½ tablespoon Splenda® brown sugar
- ½ teaspoon dry mustard
- 2 teaspoons chili powder
- ½ teaspoon salt
- ¼ teaspoon black pepper

Sauces

Blend all ingredients together. Sauces can be spread on poultry, fish, and pork before steaming, after steaming, or served on the side.

For the Salmon Sauce or Dill Sauce, melt butter in a sauce pan and dissolve the flour. Blend the remaining ingredients into the flour mixture. Simmer on the stove 5 minutes over low heat until thick.

Makes 1 to 1½ cups of sauce.

Salmon Sauce

Use with fish

- ¼ cup I Can't Believe It's Not Butter®
- 3 tablespoons all-purpose flour
- 1½ cups skim milk
- 2 tablespoons white wine
- 2 tablespoons tomato paste
- ¼ teaspoon dried thyme
- 1 clove garlic, minced
- ¼ cup minced onion

Dill Sauce

Use with poultry or fish

- ¼ cup I Can't Believe It's Not Butter®
- 3 tablespoons all-purpose flour
- 1½ cups skim milk
- 2 tablespoons fresh dill
- pinch ground nutmeg

For the Seafood Sauce or Hot Sauce combine all the ingredients in a saucepan. Heat the sauce until warm, but not boiling. Simmer for about 3 to 4 minutes. Serve warm. Makes 1 to 1½ cups of sauce.

Seafood Sauce

Use with fish or pork

- 1 cup catsup
- 3 tablespoons lemon juice
- ½ teaspoon Splenda®
- 2 teaspoons prepared horseradish
- ½ teaspoon Tabasco® pepper sauce

Hot Sauce

Use with fish or pork

- 1 cup chili sauce
- ½ cup beer
- 2 teaspoons prepared mustard
- ¼ teaspoon Tabasco® pepper sauce

To make the Horseradish Mustard Mayonnaise or Chili Soy Sauce, combine all the ingredients in a glass bowl and refrigerate.

Makes ½ cup of sauce.

Horseradish Mustard Mayonnaise

Use with fish

- ½ cup fat-free mayonnaise
- 1 tablespoon prepared horseradish sauce
- 1 tablespoon prepared mustard
- 2 tablespoons fresh lemon juice
