LASER PRODUCT

REGION MANAGEMENT INFORMATION

This DVD Player is designed and manufactured to respond to the Region Management Information that is recorded on a DVD disc. If the Region number described on the DVD disc does not correspond to the Region number of this DVD Player, this DVD player cannot play that disc.

This Region number of this DVD player is

RISK OF ELECTRIC SHOCK, DO NOT OPEN.

- Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel;

WARNING

- To reduce the risk of fire or electric shock, do not expose this product to rain or moisture. Position where there is no risk of splashing or dripping of liquids. Do not place vases or any other objects filled with liquids on the unit.
- To avoid fire, no naked flame source, such as lit candles, should be placed on or around the unit.
- At least 10 cm space should be left around the apparatus for sufficient ventilation;
- The ventilation holes must be kept clear from obstructions.
- In case of smoke, or unusual noises or smells coming from the unit, switch it off, unplug it from the wall socket and contact your dealer or service center.

IMPORTANT SAFETY INSTRUCTIONS

NOTE

- **For your protection, please read these instructions completely and keep this manual for future reference.**
- Unplug the device from the wall socket when it is not being used for a long period of time. When there is lightning, unplug the unit from the wall socket immediately. Never touch the aerial cable during lightning.
- The device is not suitable for children to operate.
- To prevent damage or electrocution - do not push objects of any kind through the openings in this device.
- Keep the device away from radiators and other heat sources.
- Unplug this device from the wall socket before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
- Power supply cords should be routed safely to prevent damage to the cord.
- Place the TV in such a position that the screen is not exposed to direct sunlight. It is best to have soft indirect lighting whilst watching TV. Avoid dark environments and screen reflection as these may cause eye fatigue.
- Keep the TV set away from high magnetic fields (i.e. power-amplified speakers) to avoid affecting the screen.
- When the TV has been moved from a cold place, it will need time for the moisture from inside to evaporate.
- Use an isolated power transformer during maintenance as the chassis of the device may be electrified.
- The mains plug is used for disconnecting the device, make it is easily accessible.
- Make sure the unit is connected to a mains socket which is earthed.

Remote Control Key Functions

Installing Batteries

1. Open the cover of the battery compartment at the back of the remote control.
2. Insert two AA alkaline batteries in the compartment. (plus and minus poles to respective mark)
3. Replace the cover of the battery compartment.

Precautions

Make sure that there is no obstacle between the remote controller and television set.

Keep the remote controller away from heat source or humid area to ensure effective performance of the remote controller.

As strong light may interfere the signals, change your position to operate the remote controller if the television cannot be turned on or off as you expect.

Make sure that two AA 1.5V alkaline batteries are loaded. The batteries must be of the same type. The batteries must be located properly. The batteries are not rechargeable.

Connection Instructions

Grounding

Ensure that you connect the grounding / earth wire to prevent possible electric shock. If grounding methods are not possible, have a qualified electrician install a separate circuit breaker. Do not try to ground the unit by connecting it to telephone wires, lightning rods, or gas pipes.

External Equipment Connections

Antenna Connection

- Antenna or Cable Service with a Cable Box Connections
- For optimum picture quality, adjust antenna direction if needed.

- To improve picture quality in a poor signal area, purchase and install a signal amplifier.
- If the antenna needs to be split for two TV' s, install a "2-Way Signal Splitter" in the connections.
- If the antenna is not installed properly, contact your dealer for assistance.

NOTE: All cables shown are just for example.
Customer helpline: 0845 604 0105

Connection Instructions

VGA Input

You can use your LCD-TV as a monitor for your personal computer using a VGA cable (not supplied).

Connection and use steps:

1. Read the user guide supplied with your computer and ensure that it has a VGA connector;
2. Make sure that the power of the LCD-TV and the PC are off;
3. Connect a Dtype 15-pin VGA interface cable (not supplied) to the VGA video interface connector on the PC. Then connect the other end to the PC video interface connector on the back of the LCD-TV. Tighten the screws on the VGA connectors once they are firmly connected;
4. Turn on the power of the LCD-TV first, and then turn on the power of the PC;
5. Press the **SOURCE** button to set the video input mode of the LCD-TV to PC-RGB;
6. Check the image on your TV. There may be noise associated with the resolution, vertical pattern, contrast or brightness in PC mode. If noise is present, change the PC mode to another resolution, change the refresh rate to another rate or adjust the brightness and contrast on the menu until the picture is clear. If the refresh rate of the PC graphic card cannot be changed, change the PC graphic card or consult the manufacturer of the PC graphic card.

Resolution

| Mode | Resolution | Line frequency (Khz) | Frame frequency (Hz) |
|------|------------|----------------------|----------------------|
| VGA | 640*480 | 31.5KHz | 60Hz |
| SVGA | 800*600 | 37.9KHz | 60Hz |
| XGA | 1024*768 | 48.4KHz | 60Hz |

Note: All above listed are subject to VESA Criteria.

YPbPr Input

How to connect

Connect the DVD video outputs (Y, PB, PR) to the COMPONENT (Y, Pb, Pr) IN socks on the TV and connect the DVD audio outputs to the AUDIO IN jacks on the TV, as shown in the figure.

NOTE: If your DVD player does not have component video output, use S-Video.

How to use

1. Turn on the DVD player, insert a DVD.
2. Use the **SOURCE** button on the remote control to select

Customer helpline: 0845 604 0105

Connection Instructions

COMPONENT (If connected to S-VIDEO, select the S-VIDEO external input source.)

3. Refer to the DVD player's manual for operating instructions.

Component Input ports

To get better picture quality, connect a DVD player to the component input ports as shown below.

| | | | |
|---------------------------|---|----------------|----------------|
| Component ports on the TV | Y | P _B | P _R |
|---------------------------|---|----------------|----------------|

| | | | |
|----------------------------------|---|----------------|----------------|
| Video output ports on DVD player | Y | P _b | P _r |
| | Y | B-Y | R-Y |
| | Y | Cb | Cr |
| | Y | P _B | P _R |

S-VIDEO Input

- To avoid picture noise (interference), leave an adequate distance between the VCR and TV

Connection and use steps:

1. Read the user guide supplied with your AV devices and ensure that it has S-Video connectors;
2. Make sure that the power of the LCD-TV and the AV device are switched off;

Connection Option 1

Set VCR output switch to 3 or 4 and then tune TV to the same channel number.

Connection Option 2

1. Connect the audio and S-VIDEO cables from the VCR's output jacks to the TV input jacks, as shown in the figure.
2. Insert a video tape into the VCR and press PLAY on the VCR. (Refer to the VCR owner's manual.)
3. Turn on the power of the LCD-TV first; and then turn on the power of the AV device;
4. Press the **SOURCE** button to set the video input mode of the LCD-TV to SVIDEO mode.

Connection Instructions

SCART Input

1. Connect the scart lead from the external device(DVD players, settop boxes or game consoles, to the TV SCART socket.
2. Press **SOURCE** to select SCART mode.
3. Press Play button on external equipment and it should appear on the screen.

HDMI Input

HDMI Devices

Connect the cable from the HDMI devices to the TV HDMI, as shown in the figure.

How to use

1. Select the iHDMI source by using the **SOURCE** button on the remote control.
2. Operate the corresponding external equipment. Refer to external equipment operating guide.

Note: The audio cable included with the TV should be used when connected with PC/ COMPONENT/S-VIDEO.

Basic Operating Instructions

Turn on the LCD-TV

When the **POWER(STANDBY)** button on the remote control is pressed and the LCD-TV is turned on, the indicator light on the front of the LCD-TV changes from red to green. When the LCD-TV is turned off using the **POWER(STANDBY)** button, the LCD-TV will go into standby mode and the indicator light turns red.

You can also turn on the TV from standby mode by pressing the digits(1-9) or P+/- .

The display will appear on the screen when the TV is turned on the first time:

| | |
|----------------|-----|
| AUTO SEARCH | |
| UNITED KINGDOM | |
| NO | YES |

Press **V+/-** to adjust the region and **P+/-** to select the YES and **MENU** to confirm. All channels will be stored after the process.

Audio Control

1. Press the **V+** button to increase the volume.
2. Press the **V-** button to decrease the volume.

TELETEXT

- Teletext is an information system, broadcast by certain channels, which can be read like a newspaper . It also provides subtitles for people with hearing difficulties or those who are unfamiliar with the language in which a particular program is being broadcast (cable networks, satellite channels, etc.).

Note: The teletext buttons could be working even if there is no teletext signal, but there is no teletext display.

Teletext

TUNE

Teletext functions

To select "Teletext" press the Teletext button on the handset. To switch off Teletext, press the button again. "Note all menu functions are not available in Teletext mode". Only a few direct button control functions are available in TELETEXT mode, they are:

- Volume adjustment
- Mute function

Page up/down

Use the P+/- buttons to browse next or previous page.

Page number entering

To select a Teletext page, enter the page number using the numeric key pad on the remote control, or use the P+ or P- buttons, or the coloured Fast text buttons.

Mix mode

To view the TV picture while in Text mode press the  button, this will superimpose the Teletext data on top of the Tv picture. Press this button again to return to Full text.

INDEX

Press the tune button to go to the index page of teletext.

TELETEXT

Teletext

Cancel mode

This feature allows the TV picture to be displayed while next page to be searched is entered and found. Only the top teletext line is displayed until the page is found. Press the button to hide the teletext information. Either press the  button or the Text button to exit the cancel display mode.

Language change

Pressing the  button will change the Teletext characters between Eastern and Western.

Hold

Pressing the  button will stop the teletext page automatically updating. This feature is very useful where there are several teletext pages or data on the same page number.

Size

Pressing the  button changes between full screen top half bottom half full screen. This feature is very useful as it magnifies the image making the characters easier to read.

Reveal

Pressing the  button will reveal hidden text. This feature is used to reveal information such as answers to Teletext on-line interactive puzzles.

Subcode / Time

By entering its 4-digit number to enter a secondary page; While in normal TV mode only, pressing the button  will display the teletext time in the top right hand corner for a few seconds.

Fast text coloured buttons

Fast text automatically displays the four most commonly used pages that the broadcaster thinks that you may want to choose next. Press the same coloured button on the remote control as the coloured link at the bottom of the teletext page to go directly to that page.

Subtitle

Pressing the  button will get the teletext decoder to automatically search for the subtitle page.

Basic Playback

Basic Playback

Preparations

- Press the DTV/DVD button on the remote control to enter the DVD status.

3. Press ▲ or ▼ to select then press PLAY/ENTER to confirm.
4. Press SETUP repeatedly to exit the set-up menus.

General Setup Page

ASPECT RATIO DESCRIPTION

When using the DVD with the internal TV, select 4: 3/LB.

The following information applies only when the DVD output is connected to an external TV.

- 4: 3/PS (PS = Pan and Scan)

You may select this if you have a normal aspect ratio (4:3) TV, although the NORMAL /LB (letter box) is a more common choice. In

PS mode, widescreen material will fill the screen, but at the expense of chopping off extreme left and right edges of the original film picture. For this feature to work, the disc must be specially coded. Such discs are uncommon.

- 4: 3/LB (LB = Letter Box)

You may select this if you have a normal aspect ratio (4:3) TV. Widescreen material will be shown in pure unaltered form, allowing the entire picture area of the original film to be viewed without any side cropping. Black bars will appear above and below the picture.

- 16: 9

You may select this if you have a widescreen (16:9) TV. Black bars may still appear above and below the picture even if using a widescreen TV. This is because some film directors prefer to use ultra widescreen aspect ratios e.g. 2.35:1. This will normally be indicated on the DVD packaging.

DVD System Setup(Continued)

DVD System Setup

General Setup Page

Angle Mark: Users can select a particular camera angle when playing a DVD which offers multiple angles.

This item allows you to set Angle Mark ON or OFF.

On Screen Display (OSD) Language: Users can select on-screen display language.

Playable Discs

The following discs can be played:

| DISCS | LABEL | CONTENTS | DIMENSION |
|-------------|---|------------------------------------|-----------|
| DVD VIDEO |  | Audio +Video (moving picture) | 12cm |
| AUDIO CD |  | Audio | 12cm |
| JPEG |  | Video(picture) | 12cm |
| KODAK CD |  | Video(picture) | 12cm |
| CD-R | CD•R | Audio or Video (moving picture) | 12cm |
| CD-RW | CD-RW | Audio or Video (moving picture) | 12cm |
| CD+G | CD+G | Audio(picture) | 12cm |

Support discs: DVD, CD-R, CD-RW, HDCD, JPEG, CD+G, Kodak CD , W MA.

- You cannot play discs other than those listed above.
- You cannot play non-standardized discs, even if they may be labeled as above.
- The performance of CD-R or CD-RW disc is depend on the way of disc-burning. In a few cases, their performance may not be very well or even not playable.

Dics Protection and DVD Characteristics

ON HANDLING DISCS

- Do not touch the playback side of the disc.
- Do not attach paper or tape to disc.

ON CLEANING DISCS

- Fingerprints and dust on the disc cause picture and sound deterioration. Wipe the disc from the centre outwards with a soft cloth. Always keep the disc clean.

- If you can not wipe off the dust with a soft cloth, wipe the disc lightly with a slightly moistened soft cloth and finish with a dry cloth.
- Do not use any type of solvent such as thinner, benzene, commercially available cleaners or anti-static spray for vinyl Lps. It may damage the disc.

ON STORING DISCS

- Do not store discs in a place subject to direct sunlight or near heat source.
- Do not store discs in place subject to moisture and dust such as a bathroom or near a humidifier.
- Store discs vertically in a case. Stacking or placing object on discs outside of their case may cause warping.

STRUCTURE OF DISC CONTENTS

Normally, DVD discs are divided into titles, and the titles are sub-divided into chapters. Audio CD are divided into tracks.

Each title, chapter, or track is assigned a number, which is called title number, chapter number or track number respectively.

There may be discs that do not have these number.

Compare DVD disc with other discs:

| | DVD | | | | LD |
|-----------------------|-------------------------------|-------------------------------|-------------------------------|------------------------------|---|
| Encode method | Digital/MPEG II | | | | Analog |
| Capacity | Single-side single-layer 4.7G | Double-side single-layer 8.5G | Single-side double-layer 9.4G | Double-side double-layer 17G | |
| Playing Time | 133 minutes | 242 minutes | 266 minutes | 484 minutes | Single-side 60 minutes double-side 120 minutes |
| Disc diameter | 12cm | | | | 30cm/20cm |
| Horizontal resolution | More than 500 line | | | | No more than 430 line |
| Picture proportion | Multiple kinds | | | | One kind |
| Subtitle | 32 kinds | | | | 16 kinds at most |
| Sound quality | 48KHz, 96KHz/ 6, 20, 24bit | | | | 44, 1KHz/ 16bit |

Troubleshooting Guide

- To assist in location possible faults use help guide below.

Troubleshooting

| | |
|---|---|
| No picture, no sound | Verify if the television is properly plugged. Verify if the television is properly supplied power. Verify if electricity is available. |
| Blank screen | Verify if correct signals are input. Press TV/AV button to change signal input to TV input. Restart the television if power supply is interrupted. |
| No sound | Press MUTE button and verify if Mute mode is set. Switch to other channel and verify if the same problem happens. Press VOL+ button to see if the problem can be solved. |
| Poor sound | Verify if sound system is correct. Refer to some chapter for adjust. |
| No picture in some channel | Verify if correct channel is selected. Adjust the antenna. Make adjustments by FINE TUNE and MANUAL SEARCH. |
| No color for some channel program (black and white) | Verify if the same problem exists in other channels. Check out of picture and sound systems. Refer to relative instructions in the Manual for color adjust. |
| Spots with some or all pictures | Verify if the antenna is correctly connected. Verify if the antenna is in good condition. Make fine adjustment of channel. |
| Television out of control | Disconnect the television from power supply and, 10 seconds later, connect the television to the power supply. If the problem still exists, contact authorized after-sales service for technical assistance. |

Note:

- 1.If the fault can not be repaired using the above guide consult with your local authorized service center.
- 2.The TV set must only be repaired by a qualified registered service person. Never attempt to remove the back cover as the TV set has dangerous voltages in side that may cause a fatality or fire.

Specifications

Connecting to Power

Check that the voltage marked on the product corresponds with your supply voltage. This product is fitted with a 13A plug complying with BS1363. If this plug is unsuitable or needs to be replaced, please note the following :

Plug Replacement

If you need to replace the fitted plug.

WARNING :

Never connect live or neutral wires to the earth terminal of the plug. Only fit an approved 13 Amp BS1363/A plug and the correct rated fuse. If in doubt, consult a qualified electrician.

IMPORTANT

The wires in this mains lead are coloured as follows:
Blue-Neutral

Brown-Live

As the colours of the wires in the mains lead of this apparatus may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:

The wire which is coloured blue must be connected to the terminal, which is marked with N or coloured blue. The wire which is coloured brown must be connected to the terminal which is marked L or coloured brown. Always ensure that the plug cord grip is fastened correctly. If a 13A (BS1363) fused plug is used it must be fitted with a 5A fuse conforming to BS1362 and be ASTA approved. If in doubt contact a qualified electrician.

WASTE ELECTRICAL PRODUCTS SHOULD NOT BE DISPOSED OF WITH HOUSEHOLD WASTE. PLEASE RECYCLE WHERE FACILITIES EXIST. CHECK WITH YOUR LOCAL AUTHORITY FOR RECYCLING ADVICE.
