Electrolux HD-Line

Smart refrigerators - 650 & 1400 lt

The Electrolux HD- Line offers one of the most comprehensive choices of refrigerated storage cabinets available. Manufactured internally and externally in 304 AISI stainless steel, operating over refrigeration or freezer temperature ranges, with solid or glass doors, and in a choice of either 650 litres or 1400 litres capacity. The refrigerator models detailed on this leaflet have the capacity of 650 and 1400 litres with smart electronic control.

EASY TO INSTALL

- Mounted on adjustable stainless steel feet, with castors as an option.
- · Choice of doors to suit varying kitchen requirements.
- Refrigerator models 726545 and 726494 have operating temperatures that can be adjusted from -2 °C to +10 °C to suit both meat and dairy storage requirements.
- Refrigerator models 726593 and 726495 have operating temperatures that can be adjusted from -15 °C to -24 °C to suit both meat and dairy storage requirements.
- Performance guaranteed at ambient temperatures of +43 °C.

EASY TO CLEAN

 Forced air circulation for rapid cool down and even temperature uniformity.

726545

- Constructed from the highest quality AISI 304 stainless steel with radiused
- Interior base with corners, pressed from a single sheet.
- Sides and back of the 650 lt models are formed from a single sheet of stainless steel to avoid dirt traps.
- Evaporator unit is placed outside the cell to provide the maximum storage capacity.
- · Refrigerators are fitted with outlet pipe.

Energy Technology List

Products listed on the ETL are energy efficient, resulting in significant long-term financial benefits.

In addition, investments in products listed on the ETL may also qualify for ECA, a tax relief that permits businesses to deduct 100% of capital expenditure against taxable profits (UK only). Investing in energy-efficient technologies reduces the impact on climate change.

726495

- Accommodates GN 2/1 containers or shelves on anti-tilt runners.
- External digital temperature display.
- Interior light and lockable door.
- Smart electronic control gives the following benefits:
- Haccp: when temperature exceeds critical limits, an acoustic and visual alarm are activated. All events are recorded displaying date and time of all events.
- Smart defrost: the defrost cycle is activated only when necessary thanks to the four-probe control and an algorithm for ice detection.

- Intelligence when failure: when a probe breaks it remembers its performance of last 24h and continue to work. In this way food is safe and service can be called.
- Diagnostic: four probes constantly control working condition of the appliances.
- Food categories: depending by food stored it can be selected appropriate temperature and humidity just pushing a button.

EASY TO MAINTAIN

- Heavy-duty construction that avoids use of any plastic parts.
- The cooling unit (compressor, condenser and evapotrator) can be removed with a single operation from either the top or back.

- Evaporator cover is easily removable for service.
- Fault indication from the smart control.

EASY ON THE ENVIRONMENT

•

Smart electronics defrost only when required to save energy.

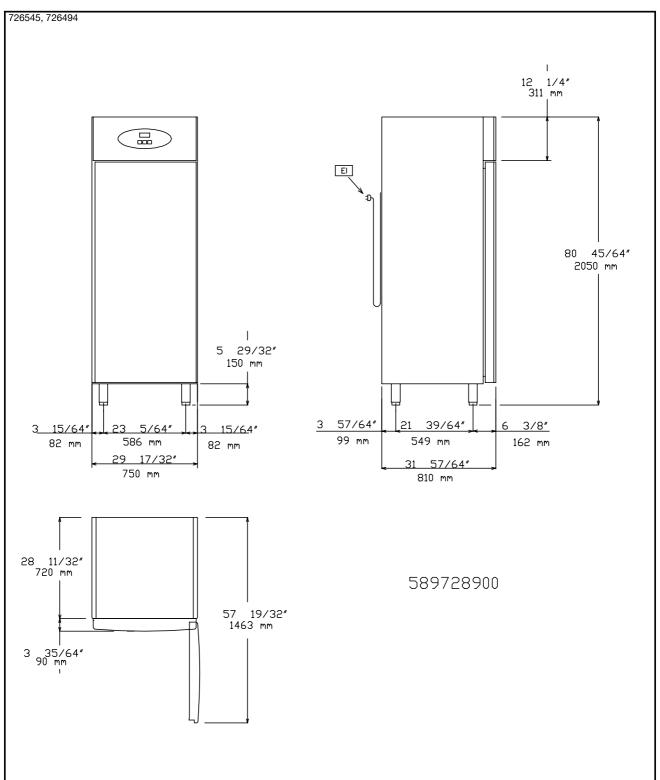

Cabinet fitted with up to 75 mm thickness of cyclopentane insulation for best insulating performance. CFC and HCFC-free insulation.

•

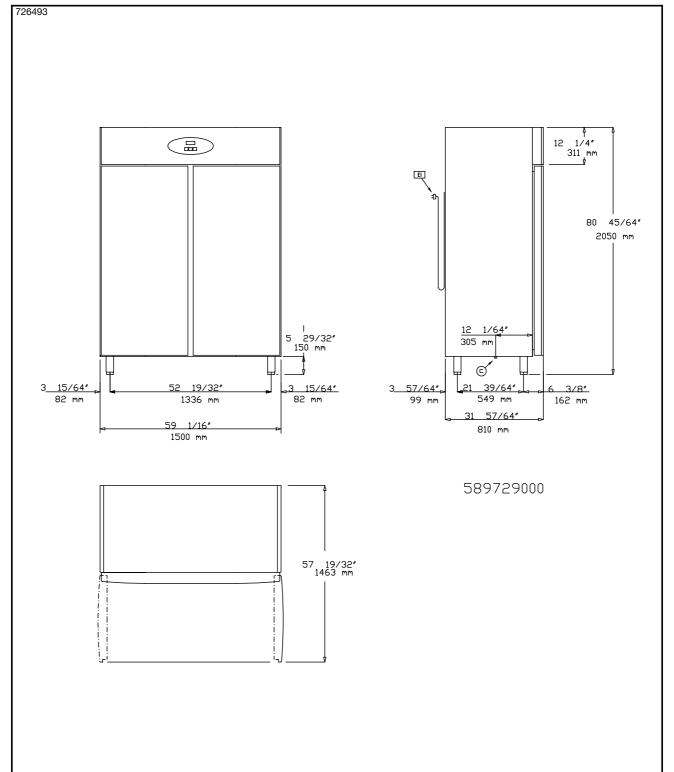

Refrigerant type: R134a or R404a.
