INSTRUCTION/RECIPE BOOKLET.

THIS BOOK COVERS THE USE AND CARE OF THE FOLLOWING SUNBEAM BARBECUES:

KETTLE KING ELECTRIC BBQ OVEN HG6300

KETTLE KING OUTDOOR ELECTRIC BBQ OVEN HG6600

Sunbeam's Safety Precautions.

SAFETY PRECAUTIONS FOR YOUR KETTLE KING ELECTRIC BBQ OVEN.

- Do not immerse the control probe in water or any other liquid.
- Do not use the control probe in any other appliance.
- Do not leave the control probe in the appliance when storing outdoors.
- For indoor use, adequate ventilation or an exhaust fan is recommended.
- Use well away from walls and curtains.
- Do not leave plastic utensils in contact with appliance while cooking.
- Only use appliance fully assembled with all parts correctly in place, as specified in this instruction book.
- Do not use the stand for any purpose other than to support your Kettle King BBQ Oven.

SAFETY PRECAUTIONS FOR ALL ELECTRICAL APPLIANCES

Sunbeam are very safety conscious when designing and manufacturing consumer products, but it is essential that the product user also exercise care when using an electrical appliance. Listed below are precautions which are essential for the safe use of an electrical appliance:

- Read carefully and save all the instructions provided with an appliance.
- Always turn the power off at the power outlet before you remove a plug. Remove by grasping the plug - do not pull on the cord.
- Turn the power off and remove the plug when the appliance is not in use and before cleaning.
- Do not use your appliance with an extension cord unless this cord has been checked and tested by your electricity supplier or qualified technician.
- Always use your appliance from a power outlet of the voltage (A.C. only) marked on the underside of the appliance.
- Close supervision is necessary when your appliance is being used near children or infirm persons.
- Never leave an appliance unattended while in use.
- Young children or infirm persons should be supervised to ensure that they do not play with the appliance.
- Do not use an appliance for any purpose other than its intended use.
- Do not place an appliance on or near a hot gas flame, electric element or in a heated oven. Do not place on top of any other appliance.
- Do not let the power cord of an appliance hang over the edge of a table or bench top or touch any hot surface.
- Do not immerse in water.
- For safety reasons and to avoid maintenance by unskilled persons, some appliances are 'sealed' using tamperproof means as specified by S.A.A. (Standards Association of Australia). Such appliances should always be returned to the nearest Sunbeam Service Centre or appointed Service Agent for adjustment or repair if required.
- Do not operate any electrical appliance with a damaged cord or after the appliance has been dropped or damaged in any manner; If damage is suspected, return the appliance to the nearest Sunbeam Appliance Service Centre for examination, repair or adjustment. As a service to Customers, Sunbeam Appliance Service Centres will carry out a free check on your appliance to ensure it is electrically safe.
- For additional protection Sunbeam recommend the installation of a residual current device (RCD) with a rated current not exceeding 30mA is advisable in the electrical circuit supplying the power outlet in use.

If you have any concerns regarding the performance and use of your appliance, please ring our Toll Free number (Australia only) 1800 025 059. New Zealand - contact the Sunbeam Office in Auckland on 09 912 0747.

Ensure the above safety precautions are understood.

Features of your Sunbeam Kettle King.

Figure 1

Features of your Sunbeam Kettle King.

Powerful 2400 watt element.

The element is embedded into the hotplate to ensure fast heat-up, even heat distribution and long element life.

Non-stick cooking surface.

Coats the entire hotplate for fat free cooking and easy cleaning.

Ribbed hotplate.

Seals in the juices and flavours of your favourite foods, while allowing the fats to drip through the drainage holes for healthy, fat free cooking.

Flat hotplate.

Ideal for frying a variety of foods including eggs, bacon, tomatoes, onions and mushrooms.

Thermostatically controlled probe.

Features 15 heat settings for total control in a variety of cooking tasks. Also features SuperSear for sealing steaks, Roast for kettle style roasting, and Defrost for thawing frozen meats.

Removable control probe.

The control probe is removable to allow for easy cleaning and outdoor storage of your Kettle King.

Removable drip tray.

Collects the fats and juices during cooking and is dishwasher safe for easy cleaning.

Cool touch handles.

Cool touch handles on the hotplate and base for easy assembly and portability.

Moulded base.

Made from durable, heat resistant nylon, the base supports the hotplate and drip tray.

High domed lid with steam vent.

Seals in the heat and moisture for natural convection cooking. The lid also features a handy hook for storage on the side of the BBQ when used with the stand. (HG6600 only)

Weatherproof parts.

Allow for outdoor storage.

Using your Sunbeam Kettle King.

Before first use.

Remove any stickers from the hotplate. Wash the hotplate and drip tray in warm soapy water using a mild household detergent. Dry hotplate and drip tray thoroughly.

To assemble the stand. (HG6600 only)

Place the base of the stand on a flat level surface. With the slots to the bottom, insert the metal tube into the hole in the centre of the base and push down firmly.

Place the swivel shelf over the metal tube with the handle on your left. Slide the shelf down the metal tube until it rests on the two plastic pins as indicated in Figure 1. Never attempt to remove the plastic pins from the metal tube, as these are the locators for the swivel shelf.

Place the top shelf onto the metal tube with the utensil rack facing away from you and align it with the swivel shelf. Push down firmly in the centre of the top shelf to secure it.

Place the base of the Kettle King on the top shelf and fit it into position. The base is correctly positioned when it is flush with the top shelf of the stand on all sides.

Place drip tray into base. For easy cleaning line the drip tray with aluminium foil. This will collect the fats and juices.

Position the hotplate over base and drip tray, as shown in Figure 1.

For better non-stick performance, "season" the cooking surface of the hotplate by applying a thin coat of cooking oil and rubbing in with paper towelling before each use.

WARNING: Charcoal or similar combustible fuels must not be used with this appliance.

NOTE: Do not place any objects such as saucepans or plates on the hotplate.

Using your Kettle King.

1. Insert the Control Probe fully into the socket of the hotplate.
2. Plug the cord into a 230/240V power outlet and turn the power on. An extension cord that has been checked and tested by your electricity supplier or a qualified technician may be used with your Kettle King.
3. Set the control probe dial to the desired heat setting.

Remove the lid from the Kettle King and allow to heat up. When the thermostat light on the control probe switches off, the desired cooking temperature has been reached and the Kettle King is ready to use.

For oven style cooking, set the dial to Roast setting, replace the lid and pre-heat for approximately 10 minutes.

Note: The thermostat light on the control probe indicates the Kettle King is heating. This light will remain ON until the set temperature has been reached and then will cycle ON and OFF throughout cooking. This will ensure that the Kettle King always maintains the selected temperature. The pre-heat time will depend on the heat setting selected.

BBQ Oven Cooking in your Kettle King.

BBQ Oven Cooking

Roasting your favourite dishes has never been so easy!

BBQ Oven cooking allows you to roast meats and vegetables efficiently, while sealing in the flavoursome juices.

The result is oven style, tender meat, with wholesome crisp vegetables.

For a perfect result every time, read the BBQ Oven Basics section below.

BBQ Oven Basics

- For optimum results, the Kettle King should always be pre-heated for 10 minutes with the lid on.
 - Keep the steam vent closed throughout cooking. Open the steam vent during the last 15 minutes of cooking - this will allow any excess steam to escape.
 - Avoid removing the lid continually during the cooking time. The heat loss will only lengthen the cooking time.
 - All meats should be fully thawed or at room temperature before cooking.
 - Baste the meat during the last 1/2 hour of cooking. Excess basting will cause the meat to burn or darken if left on throughout the entire cooking time.
 - Meats such as beef, pork, chicken and poultry require approximately 1 1/2-2 hours to cook, depending on the weight and size. To avoid the base of the meat burning, place on a greased sheet of foil. This will also collect juices, which are ideal to use for gravy.
- Avoid overcooking meats. The longer the cooking time, the less tender the meat will be.
 - Use a meat thermometer to take the guesswork out of the BBQ cooking. The guides on the thermometer will indicate the temperature of the food. The temperature guide on the thermometer will tell you when the meat is cooked to your desired choice. For an accurate reading, always insert the thermometer into the thickest part of the meat.

Care and Cleaning.

IMPORTANT: Do not use metal utensils as these will scratch the non-stick cooking surface.

Do not leave plastic utensils in contact with hotplate while cooking.

Before cleaning, turn the power OFF then **REMOVE** the plug from the power outlet and the control probe from the socket of the **Kettle King**.

Control Probe.

If cleaning is necessary, wipe over with a damp cloth.

Do not immerse the control probe in water or any other liquid.

NEVER use the Kettle King control probe in any other appliance.

Storage

Store the probe carefully in a safe place. Do not knock or drop it as this can damage the probe. If damage is suspected, return the control probe to your nearest Sunbeam Service Centre for inspection. Refer to the back of your instruction book for Service Centre listings.

Hotplate and Drip Tray.

The element in the hotplate is totally sealed, so it is safe to fully immerse in water. Wash the hotplate and drip tray in warm soapy water using a mild household detergent and a soft washing sponge.

A bottle brush may be used to clean the drainage holes in the ribbed hotplate.

The hotplate and drip tray are also dishwasher safe.

Do not use abrasives or metal scourers as they will scratch the non-stick cooking surface. Dry the hot plate and drip tray thoroughly before storing.

Moulded Base and Lid.

The base and lid can be wiped over with a damp cloth or washed in warm soapy water using a mild household detergent and a soft washing sponge.

Do not place the moulded base or lid in a dishwasher.

Do not use abrasives or metal scourers as they may scratch these parts.

Stand (HG6600 only)

The stand can be wiped over with a damp cloth. Do not place any part of the stand in a dishwasher.

Storage.

Always dry and assemble the Kettle King before storing. Ensure the drip tray and hotplate are correctly positioned.

For outdoor storage of your Kettle King, remove the control probe and store in a safe, dry place.

Important:

Before inserting control probe in probe socket ensure the interior of the socket is fully dry. To do this wipe interior of socket with a dry cloth or shake out excess water vigorously.

BBQ Oven Recipes.

Roast Vegetables

Serves 4

4 medium potatoes

500g butternut pumpkin

4 small onions, peeled

4 carrots, peeled

salt & pepper

2 tablespoons butter, melted

Pre-heat Kettle King for 10 minutes on Roast setting with lid on.

Peel potatoes and cut in half. Cut pumpkin into 4 wedges without peeling skin.

Place the vegetables on a greased piece of foil. Season with salt and pepper.

Place the foil with vegetables on the hotplate and pour over melted butter. Curl edges of foil to securely enclose vegetables.

Place the lid on and cook for approximately 45 minutes. Remove lid and discard foil by placing the vegetables directly onto the hotplate.

Cook for an additional 15 minutes, turning over constantly until crisp.

Roast Pork with Nutty Rice

Serves 4-6

1.5kg loin of pork, boned with rind scored

Olive oil

Salt & pepper

Filling

1 tablespoon butter, melted

3 mushrooms, finely chopped

2 tablespoons chopped onion

1/4 teaspoon nutmeg

1 cup cooked brown rice

1 egg, beaten

2 tablespoons pine nuts

2 teaspoons chopped parsley

salt and pepper to taste

Combine all filling ingredients in a small bowl and mix thoroughly.

Open the pork and spread the filling evenly across the surface.

Roll the pork firmly and tie securely with string.

Brush the meat lightly with oil and season with salt and pepper.

Place the pork on a greased sheet of foil and curl in edges. Cook with lid on for approximately 1³/₄ hours or until cooked.

Allow meat to cool for 10 minutes before slicing.

BBQ Oven Recipes.

Roast Beef

Serves 4-6

2kg silverside or topside beef

2 teaspoons French mustard

1/4 cup oil

2 teaspoons fresh thyme

salt & pepper

Pre-heat Kettle King for 10 minutes on Roast setting with lid on.

Trim meat of excess fat and sinew.

Combine mustard, oil and thyme. Brush over meat and season with salt and pepper.

Place meat on a greased sheet of foil. Curl edges of foil to seal meat.

Cook with lid on for approximately 2 hours or until desired. Lightly brush the meat with a little oil during the last 15 minutes of cooking.

Allow the meat to cool for 10 minutes before slicing.

Roast leg of Lamb

Serves 4

2kg leg of lamb

1 teaspoon crushed garlic

Olive oil

salt & pepper

Pre-heat Kettle King for 10 minutes on Roast setting with lid on.

Trim meat of excess fat and sinew. Coat meat with olive oil. Spread garlic over meat and season with salt and pepper.

Cook with lid on for approximately 2 1/2 hours for medium rare meat. Brush meat with a little oil, during the last 15 minutes of cooking.

Allow the meat to cool for 15 minutes before slicing. Serve with mint sauce or jelly.

Roast Chicken

Serves 4

1.8kg chicken

5 pieces garlic

1 small bunch fresh rosemary

Olive oil

salt & pepper

Pre-heat Kettle King for 10 minutes on Roast setting with lid on.

Wash and clean chicken thoroughly, removing any fat deposits inside the cavity. Pat dry with paper towel.

Place the garlic and 1/2 the bunch of rosemary in the cavity. Tuck the wings back and tie the base of the chicken with cooking string so that the legs are crossed and securely positioned.

Brush the chicken on a greased sheet of foil and curl in the edges. The foil will hold in all the juices.

Cook with the lid on for approximately 2 hours 15 minutes, or until cooked.

Note: To determine whether chicken is thoroughly cooked, insert a skewer into the thigh. If the juices run clear, the chicken is cooked.
